

Introduction to Formal Concept Analysis

Exercise Sheet 3, Winter Semester 2017/18

Exercise 1 (computing and drawing formal concepts)

Given the formal context in Table 1,

1. compute all formal concepts of that context,
2. draw and label the line diagram of the concept lattice, and
3. check if the diagram is correct.

Can you discover implications in that context? If yes, which? Do these implications hold in general? If not, how could they be become invalid?

Annette	×				×		×	
Primus v. Quack	×			×			×	

Exercise 2 (clarified and reduced contexts)

Consider the first formal context from the lecture, depicted in Table 2.

1. Provide a set of objects and a set of attributes which, when removed from the context, yield a clarified context whose concept lattice is isomorphic to that of the original context.
2. Considering the clarified context thus obtained, determine the reducible objects and attributes.
