

Setup Instructions – AI Birds Game Playing Software

1 Get The Software

Download the Basic Game Playing Software:

<http://aibirds.org/Software/AngryBirds/abV1.32.zip>

2 Get It Run

Follow the instructions (for step 5, follow the note below):

<http://aibirds.org/basic-game-playing-software/getting-started.html>

Note: the online game of angry birds on <http://chrome.angrybirds.com> is not available anymore. Thus, regarding step 5, process as follows:

1. Download this file: <https://www.dropbox.com/s/3e6f4ne1e5c545f/Application%20Cache.zip?dl=0>
2. unzip it, you will have a folder named "Application Cache".
3. Close all your Chrome windows and kill all the background Chrome processes.
4. Set the file system so that it shows all hidden files.
5. Go to the directory
 - For Windows: C:\\Users\\\$your_user_profile\$\\AppData\\Local\\Google\\Chrome\\UserData\\Default
 - For Linux: /home/\$your_user_profile\$/.config/google-chrome/Profile1/
 - For Mac: /Users/\$your_user_profile\$/Library/ApplicationSupport/Google/Chrome/Default
6. You will see a folder named "Application Cache" (if you don't see it just skip the first part of the next step)

7. Change the name of that folder (to anything you can remember), and copy the one you just downloaded into the directory
8. Restart Chrome and access the game as before

You may have to copy the folder into the directory every time before you start the game.
