Assuming that the article were a research report, assign a rank in each of the following categories, using the scale −3, −2, −1, 0, 1, 2, 3 (from worst to best): originality, significance, relevance, quality of writing, technical quality, and overall score.

Now write a review for the article: start by writing a paragraph that summarises the article, then explain each of your scores in a separate paragraph.

You may assume that originality and relevance are sufficient for acceptance.
